SUMMARY

Information Technology undergraduate with hands-on experience building **full-stack, backend, and cloud-native applications**. Skilled in scalable backend systems, APIs, databases, AWS, and cloud infrastructure, with a strong foundation in DSA and System Design. **2× AWS Certified (AWS Solutions Architect – Associate & Cloud Practitioner)** and ranked in the **Top 2%** nationally in Programming in C (NPTEL Gold), with an additional distinction in DSA using Java.

SKILLS

- **Programming Languages:** C, C++, Java, JavaScript, Typescript
- **Full-Stack Frameworks:** React.js, Next.js, Node.js, Express.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, MySQL, Neon, Convex, Prisma, DocumentDB(AWS)
- **Cloud & DevOps:** Docker, Kubernetes, Linux, AWS (EC2, S3, Lambda, VPC, SQS, CloudFront, IAM)
- **Tools & CS Fundamentals:** Git, GitHub, Inngest, Postman, Data Structures & Algorithms, System Design

ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate (**SAA-C03**) | AWS (March 2026)
- AWS Certified Cloud Practitioner (CLF-C02) | AWS (Jan 2026)
- Programming in C – Gold + Elite (Top 2%) | NPTEL (Jan 2024 - March 2024)
- Data Structures and Algorithms using Java – Silver + Elite | NPTEL (Jan 2024 - March 2024)

PROJECTS

Full-Stack Cloud-Native eCommerce Platform on AWS 📄

- Designed and deployed a **3-tier** eCommerce architecture on AWS using EC2 (frontend & backend), NGINX, Node.js, and Amazon DocumentDB, distributed across **2 Availability Zones** for fault tolerance.
- Achieved **99.9% uptime** by implementing high availability with an Application Load Balancer (ALB) and auto-scaling policies triggered at **70% CPU** threshold, scaling EC2 instances from **2 to 4** under peak load.
- Reduced latency and hardened security by integrating VPC, CloudFront CDN, Route 53, ACM (SSL/TLS), and CloudWatch monitoring — ensuring end-to-end performance, reliability, and observability.

AI-Powered Career Intelligence Platform 📄

- Built an AI-powered platform using Next.js, Neon PostgreSQL, and Gemini API, delivering career insights, salary predictions, upskilling recommendations across **10+ career paths**, and supports 100+ users.
- Engineered **5 AI features** — chatbot, resume builder, cover letter generation, and interview quizzes (15-question bank) with performance analytics and **sub-5s** Gemini API response time.
- Deployed on AWS with Clerk authentication, ensuring scalable, secure, and low-latency performance across concurrent sessions.

Spott – Smart Event Management Platform 📄

- Developed a full-stack event management platform supporting **100+ events** and **500+ users**, enabling event discovery, QR-based ticket registration, booking management, and exclusive **Pro member features**.
- Built an organizer dashboard with real-time attendee check-in tracking, revenue analytics, and CSV export for streamlined event insights.
- Implemented **AI features** using Gemini API and deployed on AWS for scalable, low-latency performance, built using Next.js, Tailwind CSS, and Convex — reducing manual event management effort by **40%**.

EXPERIENCE

Full-Stack Developer Intern | Appify Infotech, Surat

(12 May 2025 - 21 June 2025)

- Built RESTful APIs for product & order management, and user authentication using Node.js and Express.js.
- Designed MongoDB schemas for efficient storage and retrieval of products, orders, and user data.
- Developed admin dashboard and order tracking UI using React.js, enabling real-time visibility into operations.

EDUCATION

Charotar University of Science & Technology (CHARUSAT) | Anand

(July 2023 - July 2027)

- B.tech, Information Technology | CGPA: 9.2/10

Ashadeep International School | Surat

(June 2022 - May 2023)

- X (GSEB): 95.96% PR | XII (GSEB): 92.81% PR | JEE Mains : 94% PR
