SKILLS

- **Programming Languages:** C, C++, Java, JavaScript, Data Structure & Algorithm
- **Frameworks & Libraries:** React, Next.js, Node.js, Express
- **Cloud & DevOps:** AWS (ec2, s3, Lambda), Docker
- **Database:** MongoDB, MySQL, PostgreSQL, Prisma, Neon, Convex
- **Tools & Technologies:** Git, Github, DockerHub

EDUCATION

Charotar University of Science & Technology (CHARUSAT)

(July '23 - July '27)

B.tech, Information Technology, CGPA: 9.26

Ashadeep International School | Surat

(May '22)

- XII (GSEB) | PR : 92.81%

(May '20)

- X (GSEB) | PR : 95.96%

PROJECTS

AI Career Guidance System

- Build an AI Career Guidance System that provides career insights, salary ranges and upskilling recommendations based on user skills, experience and industry background.
- Contains AI features such as interactive chatbot and growth tools like resume builder, interview practice quizzes with performance analytics and cover letter generator.
- Deployed on AWS, so it provides low-latency and scalability. Next.js, Tailwind, Clerk, Neon PostgreSQL, Ingest and Gemini API are the technology used.

WebTrack - Website Analytics Platform

- Developed a website analytics platform where user can keep track of their website and get a detailed analytics just by adding script in their website. It gives 7-day free trial and premium plans.
- Website analytics dashboard gives interactive visualization of traffic using metrics and graph, filters based on date-ranges and timestamps . Give website access details like Source, Referral, Location, OS, browser and device.
- Next.js, Neon PostgreSQL, Clerk, Tailwind and shadcn are tools and technologies used.

Spott - Event Organizer

- Developed an Event Organizer system using Next.js, which allows users to discovered events, register with QR-based tickets, manage event bookings and additional features for users having pro membership.
- Event management dashboard for organizers which provides real-time check-in tracking, revenue analytics, attendee management and CSV export for business insights.
- Used Next.js, Tailwind, Convex SQL database and Gemini API for AI integrations. Spott is deployed in AWS for Low-latency and scalability.

EXPERIENCE

Full-Stack Developer Intern | Appify Infotech, Surat

(12 May '25 - 21 June '25)

Build e-commerce website with features like collections, cart, orders, tracking status, payment gateways and admin panel. Used React for frontend; Node.js & Express for backend and MongoDB as database.

ACHIEVEMENTS

- AWS Certified Cloud Practitioner | AWS (Jan '26)
- Programming in C language - Gold + Elite (Top 2%) | NPTEL (Jan '24 - March '24)
- Data Structure and Algorithms using Java - Silver + Elite | NPTEL (Jan '24 - March '24)
